ASKS FOR MORE COOPERATION BETWEEN CAPITAL AND LABOR

President Wilson Calls Upon Republican Congress to Legislate With This Aim in View

BOTH HOUSES HEAR MESSAGE

Springs Surprise in Recommending Repeal or Amendment of War Time Prohibition Act

WILL RETURN THE RAILROADS

President Admits Lack of Familiarity With Domestic Problems Owing to "Duty" Abroad

By ROBERT J. BENDER
(U. P. Staff Correspondent.)

Washington, May 20.—The first resolution to be reported out favorably by a house committee was the one introduced yesterday by Republican leader Mann providing for woman suffrage.

Washington, May 20.—President Wilson today called upon a republican congress to legislate this session along lines that will insure greater co-operation between labor and capital.

The outstanding feature of his message read to both houses of congress, was his appeal that those who do the daily labor of the world "obtain progressive improvement in the conditions of their labor, be made happier, and be served better by the communities and industries which their labor sustains and advances."

The new interest between capital and labor, he said, can be made operative and manifest only in a new organization of industry, and he urges business men and workers to "seek and sincerely adopt a common purpose" toward that end.

Regretting his inability to be present and his lack of familiarity with domestic conditions, owing to the "duty" which keeps him at the peace conference, the president, in making his recommendations, declares they must of necessity be "only in general terms." However, he specifically told congress that he will return the telegraph and telephone lines as soon as the re-transfer can be affected without administrative confusion and the railroads, he said, will be handed over to their owners at the end of the calendar year.

"It is clearly desirable, in the public interests," he said, "that some legislation should be considered which may tend to make of these indispensable instrumentalities (wire lines and railroads) a uniform and co-ordinated system," that those who use them may be insured certain means of country-wide communication at uniform and intelligible rates.

These recommendations, however, had been looked for. The promised "surprise" of the president's message lay in his recommendation to congress to repeal or amend the war time prohibition act.

By this action the president passes over to the republicans the burden of upholding or rejecting the war prohibition question settled in favor of the "drys" by a democratic congress.

Demobilization of the army, the president says, has reached a point where the ban on intoxicants can be removed, insofar at least as it pertains to wines and beers.

The president advises against any "general" revision of import duties, but counsels protection for the new American dye industry.

He urges revision of taxes so that the income tax, excess profits tax and the estate tax can be made to "yield constant and adequate returns and yet not constitute a too

High Points in Wilson Message

President Wilson recommends:

Repeal of amendment of war time prohibition act insofar as applies to wines or beers.

Creation of a federal agency of advice and information as a clearing house for suggested improvements in industrial conditions.

Maintenance of the United States employment service.

Adoption of the land-for-soldiers bill sponsored by Secretary Lane.

Legislation to facilitate American enterprise in foreign trade.

Reconsideration of federal taxes to relieve the burden particularly on productive resources, making incomes, excess profits and estates the mainstays of steady taxation.

Against general revision of import duties, but for protection of the American dye industry.

Adoption of the suffrage amendment.

Return of the telegraph and telephone lines to their owners under more co-ordinated system.

Return of the railroads under a more uniform system.

Repeal of so-called luxury tax.

grievous burden upon the taxpayer."

He urges repeal of many "minor taxes," including "the excises upon various manufactures and the taxes upon retail sales."

Tax revision should be made only after a most careful study of the whole problem, he says.

The president would maintain the United States employment service, co-ordinate the various agencies for reconciliation and adjustment, create a new agency to act as a clearing house for ideas to improve industrial conditions and reclaim western lands, in order to help out the general program of making things better for those working and wanting work.

The president did not touch upon his work in Paris, except to say

SUGGESTION OF WILSON ACTED ON

Senate Progressives Announce Program For Labor Legislation in Line With President's

KENYON ANNOUNCES PLANS

(By United Press.)

Washington, May 20.—Simultaneous to the reading to congress of the president's recommendations for labor legislation, senate progressives through Senator Kenyon announced the program of labor, which it is believed is the same in principle as that the president declared must dominate in labor legislation—a partnership of capitalists and labor in which each shall share in the profit of the industry.

Capitalists and labor are in a partnership, where labor contributes work itself and capital contributes money, says Kenyon. If they are partners, each is entitled to a division of the profit.

The progressive labor program as set forth consists of eight measures which will be followed by others.

MEET A LIBERAL RESPONSE

Committees Get S. A. Pledges Readily—Tomorrow Doughnut Day

Reports received today by the Elks committee in charge of the Salvation Army Home Service fund campaign, indicated that a majority of the solicitors in the county are at work and are meeting with a liberal response.

The outstanding feature of the campaign will be the observance of Doughnut Day under the auspices of the Tri Kappa society tomorrow. Bakers of doughnuts will be baked tonight and in the morning by the women of Rush county will be on sale in front of the O. P. C. H. and Wyatt's furniture store.

HAWKER IS STILL IN PORT OF MISSING MEN

No News Received Regarding Whereabouts of Australian Aviator Who Jumped Off Sunday

NC 4 IS AT PONTA DELGADA

(By United Press.)

London, 2:40 p. m. May 20.—Neither the admiralty nor the air ministry had received up to this hour any news regarding the fate of Henry Hawker's Sopwith airplane in which he flew from Newfoundland Sunday.

All available ships were searching for the machine.

Washington, May 20.—The Navy Curtiss 4 arrived at Ponta Delgada at 10:24 a. m. Washington time, the navy department was advised officially today.

The plane arrived in good condition, according to the dispatch.

Commander Read made an average speed of 95 miles an hour on the 150 mile trip from Horta to Ponta Delgada, it was learned today. He was in the air one hour and thirty-four minutes, figuring on the basis of official dispatches to the navy department.

After weathering a sixty-mile gale and heavy sea, the missing seaplane NC 3, flagship of the American naval trans-atlantic flight squadron, late Monday entered Ponta Delgada Harbor under her own power nearly sixty hours from the time she was forced down by fog when almost in sight of the Azores on the record breaking flight.

"DAVID HARUM" CASE GOES ON TRIAL TODAY

George W. Thomas Alleges Brood Mare He Bought of Arthur Ritter at Sale Was Misrepresented

DEMAND IS FOR \$80 DAMAGES

A typical "David Harum" law suit was on trial in the circuit court before a jury today in the case of George W. Thomas of this city against Arthur Ritter of near Orange for \$80 damages. Mr. Thomas alleges that a brood mare which he bought at Ritter's sale in 1917 for \$180 was misrepresented and that she was not worth over \$100.

The jury hearing the case is composed of the following men: L. N. Stevens, J. H. Wright, Herschel Daubenspeck, John Jordan, L. E. Ward, A. W. Newsom, N. R. Farlow, Floyd E. Kinnett, Bert Cohee, Claud Adams, Edgar Noble and Charles Hugo.

Judgment on a note for \$358 on principal and interest and \$35.80 attorney fees, making a total of \$393.80 has been awarded the plaintiff in the case of Charles W. Mason against Frank and Blanch Gilson. The mortgage was also foreclosed.

FINDS FOUR CASES FOR DISPOSITION

J. McKeown, Vocational Training Agent, Decides to Remain Over Night to Meet Soldiers

GRISBY BROTHERS HERE

Russell Dearing, Discharged With 15 Percent Disability, Also Consults With Agent

When Wil J. McKeown, special agent of the division of rehabilitation of the federal board for vocational education, arrived here at 12:45 today, he found so many more cases demanding his attention than he expected, that he made arrangements to remain all night so as to dispose of all of them properly. Mr. McKeown had intended to go to Shelbyville this evening.

Dewey Grisby of Richland, who was seriously wounded by shrapnel in France, and his brother, Arthur Grisby, who was discharged at a camp in the United States as physically unfit, were in consultation with Mr. McKeown this afternoon. Guy McBride, cashier of the Mays National bank, who served overseas, and Russell Dearing, who was seriously wounded in France, were to meet McKeown later in the afternoon.

Mr. Dearing, who is a rural mail carrier, was discharged with a fifteen percent disability, which, it is expected, will entitle him to compensation and the privilege of being fitted by the government for some avocation. He sustained a deep shrapnel wound behind the left ear and bears a large, deep scar to show for it.

Dewey Grisby also saw much hard service overseas. He suffered many wounds on the left side of his body, his face being badly disfigured. It is said that Mr. Grisby's wound in the jaw was not treated properly so that it now causes him considerable inconvenience.

The government trains men for most any kind of avocation in life and the soldier is given a minimum of \$65 a month during the two years he is being taught a trade or profession.

"It is wonderful the amount of hidden talent and power that is to be discovered in the uneducated, untrained men when they are given a chance," Mr. McKeown said. "Down at Hopkinsville, Ky., there is a man who lost a leg in the service. He is a splendid looking man and is naturally alert and capable. He never had an opportunity to learn to read or write, and to look at his refined, cultured appearance one is surprised at his lack of learning along certain lines. Along practical experience and observation he is far superior to the average man, and is an expert in farming, as far as his experience has taken him. He is anxious to study scientific farming, and the Government is anxious to let him do it. When he completes his course he will be the best kind of a man possible to hold a place as county agricultural agent or to work in some other Government or private capacity."

FINED FOR PROVOKE.

George Foutty of Greenfield pleaded guilty to a charge of provoke before Squire J. P. Stech late yesterday afternoon and was fined \$1 and costs. The affidavit was filed against him by Mrs. Martha Wallace, wife of Frank Wallace, who was formerly Foutty's wife.

RELEASED ON BOND.

Charles Day, who was arrested for public intoxication Saturday night, has been released on bond to await trial before Mayor Irvin, who is out of the city. Day has been fined twice lately for drunkenness.

BROCKDORFF TOLD TO SIGN IS BELIEF

One of Three Things Open to German Peace Delegation, Which Has Final Instructions

DATE MOVED UP TO JUNE 1

Nine Members of American Peace Commission Resign Because of Character of Treaty

(By United Press.)

Paris, May 20.—The German peace delegation has received their final instructions regarding the treaty, it was announced today.

Foreign Minister Brockdorff returned to Versailles from Spa yesterday with a definite policy.

It seems certain that the Germans will do one of three things—sign with as little fuss as possible; sign after some of the present delegates have resigned to save their faces or refuse to sign at all.

The general opinion appears to be that Brockdorff was told to sign.

Most of the allied delegates are beginning to doubt if the German treaty will be signed before the first of June.

Brockdorff, it is expected, will hand in valuable counter proposals probably Thursday, the expiration of the time limit.

In that case the allies will take all the time necessary to refer the communication to technical committees and sub-committees, thus consuming a week and probably two, and a week on the final action. Thus officials believed the treaty with Germany will not be signed until between June 5 and 15.

Paris, May 20.—Nine members of the American peace commission have offered their resignation as the result of dissatisfaction with the terms of the German treaty, it was learned today.

Three of the resignations are said to be final and the others have been held in abeyance at the request of the commission.

GIVEN ONE YEAR IN OHIO BOYS SCHOOL

Herbert Jackson, 16, and Dallas Byrd, 17, Are Sentenced For Auto Theft at Hamilton, O.

BEFORE THE JUVENILE COURT

Boys Stole Machine May 13 While Fugitives From Here and Returned to Indianapolis

Herbert Jackson, age 16 years, son of Andrew Jackson, and Dallas Byrd, age 17 years, son of Frank Byrd, both living near this city, were sentenced to the Ohio Boys' Industrial school at Lancaster, by Judge R. S. Woodruff in juvenile court in Hamilton, Ohio, yesterday afternoon for an indeterminate time according to a dispatch from that city today.

The two boys were arraigned on a charge of stealing an automobile in Hamilton Tuesday, May 13, while they were fugitives from this city.

Under the Ohio law, it is said that a sentence similar to the one given the local boys is equivalent to a years imprisonment, although there is some chance of their being released sooner if their behaviour is good.

Dallas Byrd and Herbert Jackson were connected with the theft of thirty white plymouth rock chickens from Cary Cross, living near this city, Saturday night, May 10. Two other boys near the city were given suspended sentences and fined for the part they played in the same affair. After stealing the chickens, Jackson and Byrd went to Hamilton where they stole the Ford and returning to Indianapolis by the way of Rushville, stopping here for only a few minutes, evidently having been given a "tip" that the police were on the lookout for them.

Going from this city to Indianapolis, they were apprehended while in the act of selling the Ford machine. They were returned to Hamilton from Indianapolis by the police to await trial in the Hamilton juvenile court.

It is thought by the city administration here that the arrest and convictions of this group of boys

FARMER OF NEAR MAYS IS SUED FOR DIVORCE

Mrs. Jennie O. Scott Files Complaint Against Husband, Thomas B. Scott, Asking \$7,000 Alimony

SHE ALLEGES HE CHOKED HER.

Thomas B. Scott, a farmer of Washington township, living on Mays R. R. 1, was sued for a divorce and \$7,000 alimony in the circuit court today by his wife, Mrs. Jennie O. Scott, who also asks the custody of their seven-year-old daughter, Avis Marcella Scott, and an allowance for support and preparation for trial of the suit.

Mr. and Mrs. Scott were married November 23, 1904, according to the complaint, and separated May 13, 1919. Mrs. Scott alleges that her husband choked her three different times and on many occasions slapped her. It is also alleged that Mr. Scott cursed his wife and called her vile names. The complaint says he failed to provide sufficient clothing for his family and supplies for the household, though he was amply able to do so.

It is set forth that he owns 40 acres of real estate worth \$250 an acre, making its value \$10,000; seven horses, valued at \$1,200; 29 hogs, valued at \$800; farm implements worth \$1,000 and other personal property.

WATSON AND NEW WILL BE HONORED

Former is Selected For Place on Finance Committee Which Will Frame Tariff Legislation

NEW ON FOREIGN RELATIONS

As Forecast Yesterday, Senator Watson is Made Member of Committee on Committees

Washington, May 20.—Senator James E. Watson probably will become a member of the finance committee of the senate and Senator Harry S. New may be chosen for a place on the foreign relations committee.

Both are major committees to which only senators of long service usually are chosen, so it will be a high compliment should the Indiana senators finally be named for such important places.

The finance committee considers all tariff and revenue measures, while it will be the senate foreign relations committee to which the treaty will be referred when it is finally sent to the Senate by President Wilson. Besides being in line for these important committees, Senator Watson will retain his place on the interstate commerce committee which will consider the railroad problem and Senator New will remain on the military committee.

Senator Watson as forecast yesterday was Monday afternoon named by Senator Lodge, a Republican senate leader, as a member of the senate committees. Senators Brandegee, Curtis, Harding, Sterling, Calder, Borah and Johnson, were others named on this committee, but Senators Johnson and Borah asked to be excused because they preferred that the progressive group be represented by Senator Jones of Washington and Senator Kenyon. Senator Lodge, however, will not substitute Jones, who is slated for chairman of commerce bureau. He wants to avoid placing the chairman of any major committee on the committee which is to pass out committee assignments.

that it would be premature to discuss it until he could presently lay the whole matter before congress in complete form. His sole reference to the league of nations in the message was to say that under its agencies of international counsel and suggestion on industrial problems had been created and it would be advisable to have a national body to do such work for American workers and industry alone.

Called into extra session in an unprecedented manner—by cable from the president in a foreign country—the new congress, immediately has become the center of

world attention. Upon its formal deliberations depend the outcome of the peace treaty which President Wilson has aided in drafting for nearly six months in France, and upon the face of the treaty depends in a large part the course America will follow henceforth.

The Princess Wednesday HOME OF THE SILENT ART

Days Pickings

—Miss Margaret Halbrook is ill at her home in North Sexton street with tonsillitis.

—Members of the Edmundo high school will give their play at Bentonville, Ind., tomorrow night.

—Miss Marjorie Cox is reported to be in a satisfactory condition after being operated on at the Sexton hospital, Saturday, for appendicitis.

—George Lowden of Walker township, Will Martin of Union township and Denning Haynes and Ed Jordan of this city were in the fore class of Shriners, which was initiated in Indianapolis last night.

—Hargrove & Mullin are making extensive improvements on the interior of their store. An old stairway in the rear has been removed to make more space and an Edison demonstration room is being built in what was formerly used for storing goods.

—Frank Mzingo of North Arthur street was slightly injured yesterday at the Frazee coal and lumber yards when he slipped from a wheel of the wagon upon which he was standing and hurt his back. It was thought this morning that he would be able to resume his duties there in a few days.

—Silverton Miller was released from the state penal farm yesterday and returned to this city after serving a sentence imposed by Judge Sparks in the circuit court under the lazy husband act. His sentence was first suspended and then revoked when he violated the court's orders. A divorce suit in which Miller is the defendant, is pending in the circuit court.

9-YEAR-OLD BOY HURT.

—Levite Stevens, nine year old son of Mr. and Mrs. Ozro Stevens of near Orange was painfully injured Friday afternoon when a horse he was driving ran away. The lad was thrown from the rig and dragged some distance by the lines. His head and face was badly bruised and his clothes were said to be torn in shreds. The injuries though very painful, are not thought to be very serious and a hasty recovery is looked for.

"A Man May be Down But He's Never Out"

By BERT MOSES

The Salvation Army helps men and women who are down after everybody else has turned them out—even after relatives have cast them off and slammed the door in their faces.

The Salvation Army puts food into hungry mouths and puts raiment upon bare backs.

The Salvation Army finds work for the workless, homes for the homeless, doctors for the doctorless, friends for the friendless and hope for the hopeless.

The Salvation Army says a

man may be down, but he's never out, and it believes that being down is not a disgrace, but it is if a man stays there. The Salvation Army is generally peaceful, but it wages a perennial war against poverty, disease, idleness and degradation.

Commends Y. M. C. A.

In spite of the rapidity with which the army is being demobilized the National War Work Council of the Y. M. C. A. announces that the number of secretaries now in its employ in war work in the United States is 4,770. When the mobilization activity was at its height and the camps and cantonments were thronged with soldiers the Y. M. C. A. recruited no less than 8,707 secretaries for work in this country alone. There were 5,760 workers in the home field in January.

In giving out these figures the National War Work Council also made public a letter recently received from Major General W. A. Holbrook who for some months was the commander of the Southern Department.

"I desire to take this opportunity," writes General Holbrook, "of expressing the deep appreciation I feel for the splendid work of the Young Men's Christian Association in all parts of this country which have come under my observation.

"I first noted their activities when stationed in a desolate camp, on the Mexican border in 1916, when the Association came to my assistance to furnish some form of amusement for my command. The work there performed was a splendid one, both from a physical and moral standpoint.

"Since that time I have commanded at Camp Sherman, Sheridan and Grant, as well as the Southern De-

Don't worry about old age. A sound man is good at any age. Keep your body in good condition and you can be as hale and hearty and able to "do your bit" as when you were a young fellow.

Affections of the kidneys and bladder are among the leading causes of early or helpless age. Keep them clean and the other organs in working condition, and you will have nothing to fear.

Drive the poisonous wastes from the system and avoid uric acid accumulations. Take GOLD MEDAL Haarem Oil Capsules periodically and you will find that you are as good as the next fellow. Your spirits will be rejuvenated, your muscles strong and your mind keen enough for any task.

partment. In all of them the Y. M. C. A. was a conspicuous agent for good. In all of the camps above mentioned, the 'Y' huts were the scene of constant activity; some form of entertainment was provided nearly every night, and at Camp Sherman the Records showed approximately a million visits per month to these huts.

"I consider the influence of the Y. M. C. A. in building up morals was beyond price. Many men under the guidance of the Y. M. C. A. undoubtedly led a cleaner and better life than they had ever done before. Along the Mexican border, which was more than 1700 miles in extent, there was no garrison so isolated that the strong arm of this organization did not reach out to it bringing comfort and good influences.

"I feel that the army and the country at large cannot be too grateful for the splendid work of the Young Men's Christian Association throughout the land and abroad.

Decoration Day.

The civil war struck the note of our nation's greatest peril. Disunion meant abandonment of the principles upon which the country was founded, meant constant strife and eventual disintegration. At the country's call our clear-eyed young men marched out, ready to sacrifice life and limb, if need be, for the unity of the nation. Their courage saved it for future generations.

It was wise for our fathers to set a day for commemoration of the services of these citizen soldiers. Most of them now lie beneath grassy mounds in the cemeteries throughout the land, but when Decoration Day comes we pay tribute to their self-sacrifice.

Those who lost their lives in the civil war had the vision of a united country. If they could have seen her growth in power and resources, and splendor, they would have said, "IT WAS WORTH THE PRICE".

We have ourselves just passed through such another crisis. We have seen the young men of our day also rising at the call of their country. "Their eyes beheld the vision and the dream," but it was the vision of a free world, delivered from the wickedness of arbitrary power.

When we lay flowers upon the graves of the older heroes, we shall have in mind the thousands of white crosses which mark American graves on the fields of France. And with our gratitude to them will come the hope that the world will be so much better through their sacrifice that in time to come it may truly be said, "IT WAS WORTH THE PRICE".

If Germany objects to the bill of fare the allies will probably take the attitude of the old-time Western restaurant keeper, who, revolver in hand, used to say to a critical guest, "Stranger, you'll eat hash."

The peace conference at last prepared a menu to present to Germany. On examination it strikes us that it includes considerable crow and a good deal of humble pie.

Opening The Wrong Faucet

There were times when a certain Rushville citizen thought he had two of the best cars made—one a closed machine and the other a small five-passenger knockabout car to run to and from the farm. But there are times when men—even this man—revise their opinion.

In this case the owner became a backslider with respect to the quality of his two cars because they developed a stubborn spell and positively would not start. He discovered a new trait of the small car first, and then trying out the big car, found it had been infected with the same trouble.

To make a long story short, he worried and stewed and spent about \$40 at the garages locating the trouble, and then by the merest chance discovered himself that the man from whom he buys gasoline had filled his gasoline tank with coal oil. Little wonder that he swore!

PRIVATE THOMAS KEYES, 435 East 135th Street, New York City, sustained a compound fracture of the left leg, above the knee, on Oct. 5, 1918, at Verdun. He made the accompanying statement from Bed 42, Ward 4A, Debarkation Hospital No. 5, Lexington Avenue and 46th Street, New York City:

"I WAS there—at Verdun—in October, 1918—and the Salvation Army was my best bet.

"We'd been in the front line 36 hours. We had moved so fast our kitchens were lost and had no 'chow.' 'Zero hour' was set for 5:30 next morning. We 'went over,' and after three hours in No Man's Land a machine gun bullet got me in the leg.

"Litter bearers of Co. I, 127th Infantry, picked me up. On the way back, before we reached the first aid regimental dressing station, they put the litter on the ground, just behind our old front line, and a Salvation Army man gave me doughnuts, good hot coffee and cigarettes. And, let me tell you, high explosive and gas shells were falling mighty thick around us!

"It was the first food I'd had in 39 hours. The pain was fierce, and I was bleeding a lot. The doughnuts, coffee and smokes did more than simply put new life into me. The Salvation Army was my best bet.

"As I lay on the litter waiting for the ambulance all I could think of was how good the coffee and smokes tasted—my own tobacco was too bloody to smoke.

"All of us knew the Salvation Army was behind us. They were real folks, and we knew we wouldn't have to ask for help if we needed it. We knew we could count on them, and believe me, it kept up our spirits.

"I sure wish I could get out and root for the Salvation Army and tell you about them instead of writing."

Hart in "Breed of Men"

Will S. Hart in "Breed of Men," is being shown at the Princess theatre tonight, with Sena Owens as the leading woman. This is the story in which Mr. Hart made some striking scenes in the Chicago stock yards.

There are many interesting features about this picture, which are declared to be real novelties. One particularly effective scene is that wherein "Bill" Hart, in the role of a westerner who has a passion for gambling loses his roll and his horse and is, in the parlance of the cow country, "broke and afoot". This spells literal ruin for a westerner. How the hero of the story succeeds in righting wrongs to which he has been an innocent accomplice, a tool in the hands of a sharper, and wins the love of a worthy girl from it is asserted, one of the strongest plots that the virile star has ever had.

Mr. Hart was interrupted in the filming of one scene by the arrival of a beautiful leather picture of Fred Stone, the famous comedian who recently made three pictures for Arterraft. Bill and Fred are old time pals. When the former was in Chicago he saw Stone who was playing in "Jack O'Lantern" at the Colonial Theatre and he was the guest with his party at a performance of that musical comedy. While Fred Stone was on the coast working at the Lasky Studio, he and Mr. Hart had plenty of opportunity for reminiscing and enjoyed it immensely. Theda Bara in "The She Devil" is the offering tomorrow.

URGES RETURN OF ALL PHONE LINES

Copy of Letter Which Was Addressed to Both Houses of Congress Received by Local Company

EXPLAINS COMPANIES WISHES

Says Just and Speedy Settlements Should be Made For Properties Taken Under the Law

The Rushville Telephone company has received a letter from J. B. Mackinnon, vice-president of the United States Independent Telephone association, concerning the steps the government is taking regarding the turning of the private telephone owners to their former owners. The board of directors is to hold a meeting in Washington, Wednesday and at this time further plans for the companies will be discussed and plans for the future made. It has been agreed that when the telephone companies are returned to their former owners, transfer will take place at midnight on the last day of the month in order for the private ownership to start at the first of the month. At this time financial adjustments between the government and the companies will be made.

Enclosed with the letter from Mr. Mackinnon was a copy of a resolution addressed to both houses of congress, which is signed by Theodore N. Vail, president of the American Telephone company, and G. W. Robinson, president of the U. S. Independent Telephone association, and which is as follows:

"On midnight July 31, 1918, under the authority of Congress for war purposes, the President took supervision, possession, control and operation of the telephone systems of the country and has since operated them. The war has practically ceased. The public press is strongly demanding, the general public and the owners of the telephone properties are urging, that they be returned as speedily as possible, that former conditions may be restored and more satisfactory service be afforded. The President and the Postmaster-General have announced that this will be done as soon as adequate arrangements be provided for receiving and advantageously operating them. It remains only for Congress to enact such legislation as speedily as possible.

The expenses of these systems have largely increased during the past year, for wages alone at the rate of more than \$20,000,000 per

annum. This was inevitable and necessary by reason of larger proportional increases by the Railroads and industries of the country. The revenues are inadequate to care for such increases, and the deficit of the Government on that account to date is large and steadily increasing. The Postmaster-General ordered that steps be taken to secure adequate revenues, but contentions with the regulatory authorities of the States, not yet settled, have prevented such adjustments.

If such conditions continue, necessarily the credit of the operating companies will be impaired, proper expenses cannot be met, the best operating forces cannot be retained needed extensions and satisfactory service cannot be provided. A deterioration will ensue which in some localities may threaten a recurrence to public ownership or operation in order to care, even inadequately, for public needs. By prompt action Congress can prevent this contingency.

Just and speedy settlements should be made for all properties taken under the existing law, that such balances now in the possession of the government may be restored to assist in the upbuilding and extension of the various systems for better public use. The conditions and regulation of operation should be clearly defined so as to permit the companies to reestablish and maintain a satisfactory service with reasonable rates without discrimination and procure the benefits of legitimate competition. The principal operating companies of the United States are vitally interested in co-operating with Congress and the officials of the Government to accomplish these results."

The Cripple's Appeal

SHORTLY before last Christmas a wealthy man advertised his desire to bring happiness to some crippled children. A boy answered the ad, requesting food and toys.

The man asked the Salvation Army to investigate.

Major Jennie Ward, in charge of the slum work of the Army in New York city, found the cripple living in one room on

Cherry street, with a baby sister and widowed mother, recovering from influenza.

With her last earnings the widow had paid the rent. Major Ward entered a room in which there was neither fire nor food. It was the home of three humans—a baby, a cripple, a frail, toil-worn woman—that hunger and cold would have turned into a death house in a few hours.

In less time than it takes to tell a stove, cooked food, medical assistance and soul comfort were supplied. The Army assumed guardianship, preventing further suffering and perhaps self destruction, turning three hopeless lives into lives of hope.

This is an actual case—one of thousands on the records of the Army. It deserves your support.

It shows where the money goes that Swift & Company takes in.

It shows that out of every dollar received by Swift & Company from the sale of meat and by-products in 1918—

- 1—Swift and Company paid for live animals 85.00 cents
 - 2—Swift and Company paid out for labor, freight and other expenses - - - 12.96 cents
 - 3—Swift & Company had left a profit of only - - - 2.04 cents
- Total 100.00 cents

The 2.04 cents remaining as profit equals only a fraction of a cent per pound. It is too small to affect materially the price of live stock to the farmer or the price of meat to the consumer.

NAVY DEPARTMENT SENDS OUT ORDERS

Men of the Navy are Using the Uniform to Sell the Same as Army Men Have Done.

PRACTICE MUST BE STOPPED

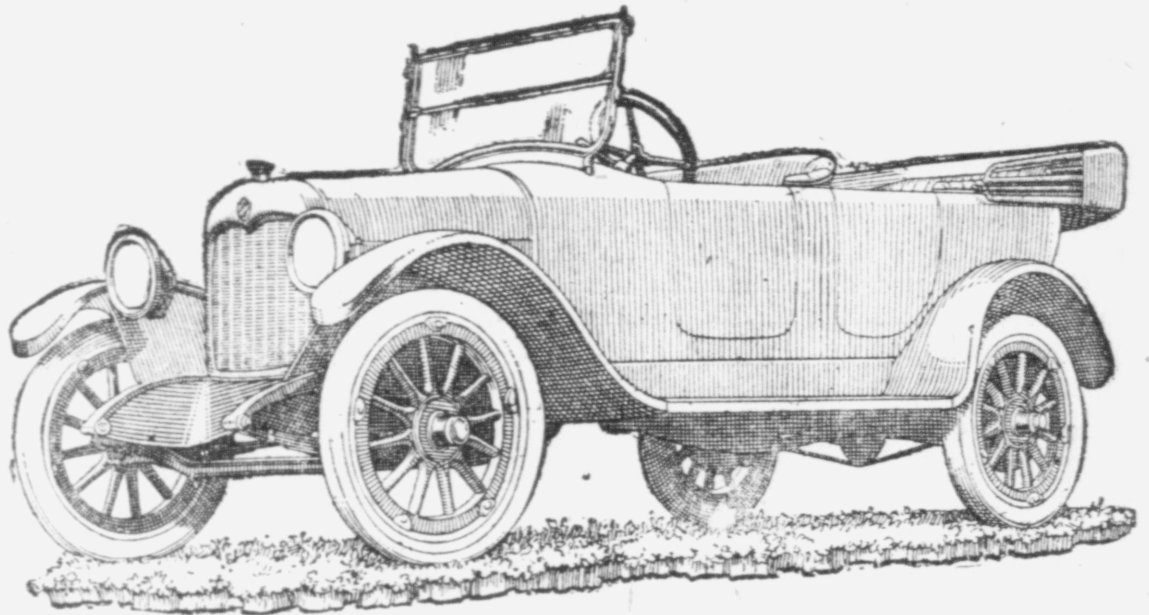

Men Say They are Discharged Without Funds but Such is not case —Mayor Gets Letter.

Mayor A. B. Irvin has received a circular letter from the navy department calling his attention to the law concerning the wearing of the navy uniform by men after being discharged and depending upon it to get them assistance in the place of working for a living. All men who have been discharged or who have been placed on inactive duty should have their discharges or inactive orders with them the letter says. Any man wearing the uniform who has not been recently discharged or placed on inactive service or is not on active duty in the navy, is violating a United States statute which is quoted in the letter as follows: "It shall be unlawful for any person not an officer or enlisted man in the United States Army, Navy or Marine Corps, or any such distinctive part of such uniform, or a uniform any part of which is similar to a distinctive part of the duly prescribed uniform of the United States Army, Navy or Marine Corps."

The navy department states that there are many men wearing the naval uniform who were never in the service and are going throughout the country selling various articles, depending upon the uniform to help them make the sales. These men claim they have been discharged from the naval service without funds and are forced to adopt these measures to get a living. It is thought that the men who are bringing discredit to the uniform are men who have never seen any service but have bought the uniform from a discharged man.

The department states that every man discharged has been released upon his own accord and has been given a bonus of \$60 and his transportation paid to his home and that there is no use of them trying to sponge off of the public in this manner. The local police have been instructed and anyone seen here trying to sell to the public while in the uniform will be apprehended at once.

\$500 more than the price of a Maxwell will buy you mere size only

FOR a Maxwell has every single modern device that any car selling within \$500 of its price possesses.

The only thing an extra \$500 will procure is size—a few inches of wheelbase, 2 inches of tire, 50 pounds more of engine, and 5 or 10 other things that a \$20 note would easily cover.

Then you run the risk of not getting as good a car as a Maxwell.

For it is one thing to build a 10,000 a year car and another to build a 50,000 a year car.

The chances are in favor by far of finding the real merit in the latter.

The Maxwell has a record run of 300,000—all of one model—behind it.

That means sureness of design, freedom from "temperament," reliability plus, economy for certain, and always a ready market value.

A larger car costs more to maintain. A smaller car has less luxury.

The familiar figure in blue uniform and poke bonnet is back home to serve, after four years in khaki with the boys "Over There." Salvation Army lassies served old fashioned American doughnuts in the front line trenches, and now that the war is over they will be found again in the slums and dark places of our great cities, ready to give a helping hand to men, women and children who are on the down grade. The Salvation Army Home Service Campaign for \$13,000,000 opens May 19, to last one week.

CONFERENCE OPENS MONDAY

Dr. Paul Rader of Moody Tabernacle Starts Meeting.

Indianapolis, Ind., May 19.—Paul Rader, evangelist and pastor of Moody Tabernacle Chicago, opened a Cedar Lake Bible and evangelistic conference in this city today. The meetings are to be held

until Friday night under the auspices of the Wheeler City Rescue Mission and the Indianapolis church Federation.

Among those interested in and participating in the conference are Governor James P. Goodrich, Morton C. Pearson, Fred Hoke, and T. C. Day, Dr. Leon Tucker, New York, editor of the Wonderful Word, was also here for the conference, which was expected to be one of the biggest religious events of the season.

**A TRIAL WILL
 CONVINCE
 YOU.**

NOTHING that we could say would so thoroughly convince you of the value of Chamberlain's Tablets as a personal trial. We can tell you of thousands who have been permanently cured of chronic constipation, indigestion, biliousness, sick headache and disorders of the stomach and liver, but this will have little weight with you as compared to a personal trial. That always convinces.

Our Interest Doesn't Cease When the Goods Leave Our Store

We are just as much interested as you are in good work by the implements that you buy from us.

When you come into our store to buy an implement, you are mainly interested in getting a good bargain. And we are mainly interested in giving you a good bargain.

As we see it, there isn't a particle of difference between a good bargain for you and a good sale for us. They mean exactly the same thing.

If the implement you buy gives you full satisfaction in actual work, you have made a good bargain and we have made a good sale. No matter what you buy of us, we are concerned in its giving satisfaction.

We live here among you. We do business over and over with the same people. We know that we can't make future sales by selling unreliable goods, but that the extent of our patronage depends upon the satisfaction given by each and all of the implements we sell.

To help us carry out this policy of ours, we handle only high-grade implements and machinery that have a reputation for satisfactory service in the hands of the farmer.

Our interest follows these implements and machines into the field and, if for any reason they fail to work properly, we take steps to find and remedy the trouble.

Our business is founded on confidence—and service. Make our store your headquarters when in town.

Beads and Palm Nuts of Africa, Hindu Women's Earrings, and Chinese Mites Aid Centenary

Above is a pile of Centenary offerings in an African village—rice, beads and palm nuts; below to the left is a Hindu boy on his way to church with his offering. At the right is a Sumatran woman who is about to give the enormous earrings shown in the picture as a Centenary offering.

PROBABLY to no campaign for funds for religious activities are contributions being made in so many forms as to the Methodist Missionary Centenary. Not only Americans are giving money to this fund, but Methodists all over the world—many of them, amid conditions of which Americans little dream, are giving in their own way to the Methodist Christian world-reconstruction fund of \$115,000,000.

Rings from the fingers, toes and ears of Hindu women are helping to pay the world's reconstruction bill. So are rice, beads and palm nuts from the huts of African villages; wedding rings and silver hairpins from the women of Korea; poultry, eggs and tropical fruits from native farms in the Philippines, and milk

from a prize Guernsey cow on a dairy farm in Wisconsin.

In the South, planters are providing special bales of cotton to help the \$115,000,000 reconstruction item. Thousands of war gardens will be transformed into re construction gardens, to help "put over" the program.

From the Methodist foreign missions posts are coming reports like this:

Palm kernels cracked by church members \$54.48
 Rice 38.53
 Silver rings, enameled plates and pans, beads, cloth and other gifts 26.24

Total collections \$119.40

For most of the country, the Methodist Campaign will be carried on May 18 to 25. Many churches of this area are already "over the top."

HE DOES HEAVY WORK

"For five years I have been troubled with my kidneys," writes Bert Dawson, 712 E. Walnut St., Canton, Ill. "I do heavy work, and that, with being on my feet all day, is a strain on a man's kidneys. My trouble started with severe, sharp pains over my back. The medicine I took gave some relief, but the trouble came back. I bought a bottle of Foley Kidney Pills, and before it was gone, my pains had entirely left me, and I have not been troubled since." They relieve backache, rheumatism, sore, swollen and stiff muscles or joints. F. B. Johnson, Adv. 7

What Doughboy's Mother Thinks of Lassies of Salvation Army Overseas

What the American doughboy, the "overseas service man" especially, thinks of the Salvation Army and its work in the war zone is as an oft-told tale, wherever America's youngest veterans get together. But here is what a Yank's mother thinks of the "Army" and its splendid overseas record and in writing of it she quotes from letters received from her son in France. She's a typical Michigan mother is Mrs. William Hoffman, 161 Stewart avenue, Jackson, although her story is typical of the same expressions that have come from Indiana mothers, especially since the announcement of the Salvation Army Home Service Fund drive for \$13,000,000 during this week. Mrs. Hoffman's letter is quoted from the Jackson, Mich. "News" as follows:

"To the Salvation Army and whom else this may concern— which should be All Humanity: I just want to express my heartfelt thanks to the Salvation Army. Although I am not a member of any religious organization it is my duty as a mother who has a son in the war to tell you what he has said to me in several of his letters. In one, written since the signing of the armistice, he says:

"Ma, last evening I listened to a sermon by a Salvation Army man who had just been away from the good old U. S. A. nineteen days. It sure was good. He told me what the folks back home were doing and it sure does make a fellow feel good. Guess I grew a foot listening to him."

"In one of the papers I noticed that the Salvation Army is trying to raise a fund of \$13,000,000 to finance itself for home service. If ever there was a deserving organization, it's this one. In our last big drive the Salvation Army lassies were with us, scarcely taking time to eat and if their canteens were with or without supplies there was always that ever welcome smile and that ever needed thread and needle."

Janesville Two-Row Cultivator

WHEN you sit comfortably on the easy riding Janesville Two-Row, and see every plant in every row getting exactly the cultivation you want it to have, you think what a blessing it is that you have a machine to do all that work. The old timers would think so if they could see you getting over the field so rapidly, and doing the work better, than they ever did.

The Janesville Floating Arches solve the problem. They are hung by pendulums from the top bar and swing from side to side with a pendulum movement. You widen or narrow the gangs in the row with your feet. Or lock them at any width desired.

The shovels naturally follow the rows, but you can shift them to either side so quickly and so easily that you can hoe every hill without stopping the team.

Your own weight on the seat bars acts as a lever to turn the wheels slightly up hill—this big advantage takes the down-hill creep out of side-hill plowing. The entire machine is light, compact, flexible—no oiling needed except in wheel boxes.

Cultivate with a Janesville Two-Row—and you will forget that there ever was hard work in cultivation.

7 A DAY FOR 7 DAYS

If Your Nerves Are Shaky Because of Over-Indulgence in Tobacco or Alcohol or by Excess of Any Kind, Bio-Feren is What You Need Right Away.

Don't grow old before your time, don't let nervousness wreck your happiness or chances in life. The man with strong, steady nerves is full of vigor, energy, ambition and confidence.

You can have nerves of steel, firm step, new courage and keen mind by putting your blood and nerves in first-class shape with mighty Bio-Feren, a new discovery, inexpensive and efficient.

Men and women who get up so tired in the morning that they have to drag themselves to their daily labor will in just a few days arise with clear mind, definite purpose and loads of ambition.

All you have to do is to take two Bio-Feren tablets after each meal and one at bedtime—7 a day for 7 days—then reduce to one after each meal until all are gone.

Then if your energy and endurance haven't doubled, if your mind isn't keener and eyes brighter, if you don't feel twice as ambitious as before, any druggist anywhere will return the purchase price—gladly and freely.

Bio-Feren is without doubt the greatest remedy for nervous, run-down, weak, anaemic men and women ever offered and is not at all expensive. All druggists in this city and vicinity have a supply on hand—sell many packages.

FASCINATING TEETH

How Every Woman Can Quickly Charm Her Friends With Lovely Teeth, Clean, White and Brilliant

If you want the cleanest of white teeth and healthy gums free from disease, an easy and quick way to get both is to use a tooth paste so effective and perfect that astonishing results usually come in a week's time.

And the cost is so little. Just go to any drug or department store, and get a large tube of SENRECO TOOTH PASTE for 35 cents.

Not only will it make your teeth clean and white, but it will at once remove any filmy coating, help to check the ravages of Pyorrhea and banish acidity in the mouth.

It is used by thousands of dentists and its sale has been remarkable. When you visit your dentist, which you should do at least twice a year, ask him about SENRECO. It's a most delightful and refreshing tooth paste.

Cultivators

THE OLIVER ONE AND TWO ROW

You will not find any neck weight on the Oliver Cultivators. The close, direct hitch is one of the main features that makes the two-row the lightest draft on the market. The gangs are eagle claw and are short and do not extend back of the wheels. The shovels work directly under the frame, which eliminates the neck weight and makes it the lightest draft two-row on the market. For sale by

Make This Test For Acid-Stomach

There are millions of people who suffer almost daily from the horrors of an acid-stomach—indigestion; sour, gassy, stomach; distressing heartburn; sickening food-repeating; painful bloating and that miserable, puffed up, lumpy feeling after eating. Many of these people have tried treatment after treatment; medicine after medicine; and stomach specialists and some to hospitals but in spite of all of their efforts they have obtained no lasting relief or a permanent cure.

These symptoms simply mean acid-stomach. If allowed to run on, they are very likely to cause a lot of serious trouble. Dyspepsia, rheumatism, gout, lumbago, sciatica, splitting headache, dizzy spells, nervousness, sleeplessness, mental depression, melancholia, a feeling of listlessness and all-goneness—these are just a few of the disorders which can be traced to the acid-stomach. As a matter of fact, acid-stomach is often the direct cause of those almost incurable conditions known as catarrh of the stomach, intestinal ulcer, and cancer of the stomach.

The lives of those who suffer from these serious troubles are nothing short of daily agony. Surely, then, you must see how important it is to go at once to the seat of the trouble—acid-stomach. You know what acid-

mouth does to the teeth—how it eats right through the hard enamel and causes them to decay. Think then of the havoc that must be caused by excess acid in the stomach!

Even if you are not suffering any immediate stomach pains, but are not feeling just as fit and fine as you should, you should by all means make this test; go to your drug store at once and get a big box of EATONIC. It is in the form of pleasant-tasting tablets—you eat them like a bit of candy. EATONIC is prepared for just one purpose—correcting acid-stomach by driving out the excess acid. EATONIC literally absorbs the excess acid. It brings instant relief from the pains of indigestion, heartburn, belching, sour, gassy stomach, bloating, etc. It makes the stomach pure, sweet, cool and comfortable, puts it in a normal, healthy condition, so that your food is properly digested. You need every bit of strength you can possibly get out of the food you eat—and EATONIC helps you get it.

Don't put this test off if you value your future good health and happiness. You run no chance at all because EATONIC is absolutely guaranteed to give you relief or your druggist will refund your money. The cost is a mere trifle.

Sergt. Murray Writes Interesting Letter to Cousin, Miss Gladys Chadwick, of This City.

NOW IN THE UNIVERSITY.

Has Traveled Extensively During the Last Few Months of Foreign Service.

Miss Gladys Chadwick of North Willow street has received an interesting letter from her cousin, Sergt. Jon C. Murray, well known here, who is now in a university in London. Sergt. Murray was awarded the Distinguished Service Cross for bravery shown in battle during the drive at Chateau Thierry and was later chosen to represent his regiment in the school for the A. E. F. in England.

A part of the letter is given herewith: "I am here as one of the students in British universities, 1800 being chosen out of the entire A. E. F. Some of that number, however, are in French universities. I was originally assigned to Cambridge but found that the work that I was most interested in could not be obtained there and I was transferred to the University of London, which ranks first in economic courses. It is my desire to train for foreign credit work and am therefore studying foreign banking, law and trade.

Had a wonderful leave, visited Nice, Monte Carlo, which is a most beautiful place with marble palaces, little lakes and rivers in wonderful gardens. I saw many other places of interest and spent five days in Paris after visiting the battle areas. I crossed the channel at La Harve, landing at South Hampton, and going to Liverpool. On St. Patrick's day I was on the Emerald Isle in Dublin. London, my present place of residence, is a wonderful city. Paris is the greatest city in the world, I think, but London ranks a close second.

My course will continue until the early part of July and then I will return home, that is, unless I get some chance to go to Russia or Italy. I will see all the Emerald Isle, Wales, Ireland and Scotland, have seen France and most of the Hunland so I would like to see the other two countries. I did my fighting and have earned a little pleasure in a sense but have a broader, better education.

I have seen myself twice in the movies. Once when General Pershing decorated me with a few others and again here as I was going into the

I looked far more frightened than the night I slipped through Heinie's lines at Fismes during the Chateau Thierry drive. You see I am very proud of my service cross and because there were only 43 given, I have a reason to have the big head".

S. A. Lassie Doesn't Know a Thing Really—On Firing Line a Year

"Really I don't know a THING! You see I've just come back from France where I'd been doing canteen work on the firing line for more than a year!"

That's the answer pretty Lieutenant Louise Stella Carmickle, aged 19, laughingly gives to all inquiries as to her sojourn in the war zone. She's been one of the few Salvation Army lassies who had baked doughnuts and pies under German shell fire and has smiled the cheery Salvation Army's lassie smile all the while.

Miss Carmickle has been telling her story throughout the Salvation Army province of Michigan-Indiana during the nation-wide drive for \$13,000,000 for the National Home Service Fund. Her story is of particular interest to Michigan and Indiana folks too, not only because she has served doughnuts and pies and coffee to so many of Michigan and Indiana boys overseas, but because she is a native Indiana girl, having been born in Tell City, Ind., but a Bay City, Mich. Salvation Army corps lassie.

War Veterans of World Battles Guests of S. A. At Memorial Observance

Veterans of all the wars are to be guests of honor at the special memorial services to be held in all cities throughout Indiana and Michigan by the Salvation Army Corps Officers, Sunday, May 25.

The veteran organizations will include the survivors of the Civil War, the Spanish American, and the veterans of foreign wars. Prominent in the line up, however, will be the youngest of American veterans, the Michigan and Indiana doughboys who have carried the flag across the Rhine.

The gathering of the veterans of all wars with their "Ally" the Salvation Army has been planned as a fitting wind-up to the National Home Service Fund Campaign for \$13,000,000 of which the lower peninsula of Michigan and Indiana had been apportioned a quota of close to \$1,000,000.

ASKS FOR MORE COOPERATION BETWEEN CAPITAL AND LABOR

President Wilson Calls Upon Republican Congress to Legislate With This Aim in View

BOTH HOUSES HEAR MESSAGE
Springs Surprise in Recommending Repeal or Amendment of War Time Prohibition Act

WILL RETURN THE RAILROADS
President Admits Lack of Familiarity With Domestic Problems Owing to "Duty" Abroad

By ROBERT J. BENDER
(U. P. Staff Correspondent.)
Washington, May 20.—The first resolution to be reported out favorably by a house committee was the one introduced yesterday by Republican leader Mann providing for woman suffrage.

Washington, May 20.—President Wilson today called upon a republican congress to legislate this session along lines that will insure greater co-operation between labor and capital.
The outstanding feature of his message read to both houses of congress, was his appeal that those who do the daily labor of the world "obtain progressive improvement in the conditions of their labor, he made happier, and he served better by the communities and industries which their labor sustains and advances."

The new interest between capital and labor, he said, can be made operative and manifest only in a new organization of industry, and he urges business men and workers to "seek and sincerely adopt a common purpose" toward that end.
Regretting his inability to be present and his lack of familiarity with domestic conditions, owing to the "duty" which keeps him at the peace conference, the president, in making his recommendations, declares they must of necessity be "only in general terms." However, he specifically told congress that he will return the telegraph and telephone lines as soon as the re-transfer can be affected without administrative confusion and the railroads, he said, will be handed over to their owners at the end of the calendar year.

"It is clearly desirable, in the public interests," he said, "that some legislation should be considered which may tend to make of these indispensable instrumentalities (wire lines and railroads) a uniform and co-ordinated system," that those who use them may be insured certain means of country-wide communication at uniform and intelligible rates.

These recommendations, however, had been looked for. The promised "surprise" of the president's message lay in his recommendation to congress to repeal or amend the war time prohibition act.

By this action the president passes over to the republicans the burden of upholding or rejecting the war prohibition question settled in favor of the "drys" by a democratic congress.

Demobilization of the army, the president says, has reached a point where the ban on intoxicants can be removed, insofar as it at least as it pertains to wines and beers.

The president advises against any "general" revision of import duties, but counsels protection for the new American dye industry.

He urges revision of taxes so that the income tax, excess profits tax and the estate tax can be made to "yield constant and adequate returns and yet not constitute a too

High Points in Wilson Message

(President Wilson recommends:
Repeal of amendment of war time prohibition act insofar as applies to wines or beers.
Creation of a federal agency of advice and information as a clearing house for suggested improvements in industrial conditions.
Maintenance of the United States employment service.
Adoption of the land-for-soldiers bill sponsored by Secretary Lane.
Legislation to facilitate American enterprise in foreign trade.
Reconsideration of federal taxes to relieve the burden particularly on productive resources, making incomes, excess profits and estates the mainstays of steady taxation.
Against general revision of import duties, but for protection of the American dye industry.
Adoption of the suffrage amendment.
Return of the telegraph and telephone lines to their owners under more co-ordinated system.
Return of the railroads under a more uniform system.
Repeal of so-called luxury tax.

grievous burden upon the taxpayer."

He urges repeal of many "minor taxes," including "the excises upon various manufactures and the taxes upon retail sales."

Tax revision should be made only after a most careful study of the whole problem, he says.

The president would maintain the United States employment service, co-ordinate the various agencies for reconciliation and adjustment, create a new agency to act as a clearing house for ideas to improve industrial conditions and reclaim western lands, in order to help out the general program of making things better for those working and wanting work.

The president did not touch upon his work in Paris, except to say

SUGGESTION OF WILSON ACTED ON

Senate Progressives Announce Program For Labor Legislation in Line With President's

KENYON ANNOUNCES PLANS

(By United Press.)

Washington, May 20.—Simultaneous to the reading to congress of the president's recommendations for labor legislation, senate progressives through Senator Kenyon announced the program of labor, which it is believed is the same in principle as that the president declared must dominate in labor legislation—a partnership of capitalists and labor in which each shall share in the profit of the industry.

Capitalists and labor are in a partnership, where labor contributes work itself and capital contributes money, says Kenyon. If they are partners, each is entitled to a division of the profit.

The progressive labor program as set forth consists of eight measures which will be followed by others.

HAWKER IS STILL IN PORT OF MISSING MEN

No News Received Regarding Whereabouts of Australian Aviator Who Jumped Off Sunday

NC 4 IS AT PONTA DELGADA

(By United Press.)

London, 2:40 p. m. May 20.—Neither the admiralty nor the air ministry had received up to this hour any news regarding the fate of Henry Hawker's Sopwith airplane in which he flew from Newfoundland Sunday.

All available ships were searching for the machine.

Washington, May 20.—The Navy Curtiss 4 arrived at Ponta Delgada at 10:24 a. m. Washington time, the navy department was advised officially today.

The plane arrived in good condition, according to the dispatch.

Commander Read made an average speed of 95 miles an hour on the 150 mile trip from Horta to Ponta Delgada, it was learned today. He was in the air one hour and thirty-four minutes, figuring on the basis of official dispatches to the navy department.

After weathering a sixty-mile gale and heavy sea, the missing seaplane NC 3, flagship of the American naval trans-atlantic flight squadron, late Monday entered Ponta Delgada Harbor under her own power nearly sixty hours from the time she was forced down by fog when almost in sight of the Azores on the record breaking flight.

"DAVID HARUM" CASE GOES ON TRIAL TODAY

George W. Thomas Alleges Brood Mare He Bought of Arthur Ritter at Sale Was Misrepresented

DEMAND IS FOR \$80 DAMAGES

A typical "David Harum" law suit was on trial in the circuit court before a jury today in the case of George W. Thomas of this city against Arthur Ritter of near Orange for \$80 damages. Mr. Thomas alleges that a brood mare which he bought at Ritter's sale in 1917 for \$180 was misrepresented and that she was not worth over \$100.

The jury hearing the case is composed of the following men: J. N. Stevens, J. H. Wright, Herschel Daubenspeck, John Jordan, L. E. Ward, A. W. Newsom, N. R. Farlow, Floyd E. Kinnett, Bert Cohee, Claude Adams, Edgar Noble and Charles Hago.

Judgment on a note for \$358 on principal and interest, and \$35.80 attorney fees, making a total of \$393.80, has been awarded the plaintiff in the case of Charles W. Mason against Frank and Blanch Gilson. The mortgage was also foreclosed.

FINDS FOUR CASES FOR DISPOSITION

J. McKeown, Vocational Training Agent, Decides to Remain Over Night to Meet Soldiers

GRISBY BROTHERS HERE

Russell Dearing, Discharged With 15 Percent Disability, Also Consults With Agent

When Will J. McKeown, special agent of the division of rehabilitation of the federal board for vocational education, arrived here at 12:45 today, he found so many more cases demanding his attention than he expected, that he made arrangements to remain all night so as to dispose of all of them properly. Mr. McKeown had intended to go to Shelbyville this evening.

Dewey Grisby of Richland, who was seriously wounded by shrapnel in France, and his brother, Arthur Grisby, who was discharged at a camp in the United States as physically unfit, were in consultation with Mr. McKeown this afternoon. Guy McBride, cashier of the Mays National bank, who served overseas, and Russell Dearing, who was seriously wounded in France, were to meet McKeown later in the afternoon.

Mr. Dearing, who is a rural mail carrier, was discharged with a fifteen percent disability, which, it is expected, will entitle him to compensation and the privilege of being fitted by the government for some avocation. He sustained a deep shrapnel wound behind the left ear and bears a large, deep scar to show for it.

Dewey Grisby also saw much hard service overseas. He suffered many wounds on the left side of his body, his face being badly disfigured. It is said that Mr. Grisby's wound in the jaw was not treated properly so that it now causes him considerable inconvenience.

The government trains men for most any kind of avocation in life and the soldier is given a minimum of \$65 a month during the two years he is being taught a trade or profession.

"It is wonderful the amount of hidden talent and power that is to be discovered in the uneducated, untrained men when they are given a chance," Mr. McKeown said. "Down at Hopkinsville, Ky., there is a man who lost a leg in the service. He is a splendid looking man and is naturally alert and capable. He never had an opportunity to learn to read or write, and to look at his refined, cultured appearance one is surprised at his lack of learning along certain lines. Along practical experience and observation he is far superior to the average man, and is an expert in farming, as far as his experience has taken him. He is anxious to study scientific farming, and the Government is anxious to let him do it. When he completes his course he will be the best kind of a man possible to hold a place as county agricultural agent or to work in some other Government or private capacity."

FINED FOR PROVOKE

George Foutty of Greenfield pleaded guilty to a charge of provoke before Squire J. P. Stech late yesterday afternoon and was fined \$1 and costs. The affidavit was filed against him by Mrs. Martha Wallace, wife of Frank Wallace, who was formerly Foutty's wife.

RELEASED ON BOND

Charles Day, who was arrested for public intoxication Saturday night, has been released on bond, to await trial before Mayor Irvin, who is out of the city. Day has been fined twice lately for drunkenness.

BROCKDORFF TOLD TO SIGN IS BELIEF

One of Three Things Open to German Peace Delegation, Which Has Final Instructions

DATE MOVED UP TO JUNE 1

Nine Members of American Peace Commission Resign Because of Character of Treaty

(By United Press.)

Paris, May 20.—The German peace delegation has received their final instructions regarding the treaty, it was announced today.

Foreign Minister Brockdorff returned to Versailles from Spa yesterday with a definite policy.

It seems certain that the Germans will do one of three things—sign with as little fuss as possible; sign after some of the present delegates have resigned to save their faces or refuse to sign at all.

The general opinion appears to be that Brockdorff was told to sign.

Most of the allied delegates are beginning to doubt if the German treaty will be signed before the first of June.

Brockdorff, it is expected, will hand in valuable counter proposals probably Thursday, the expiration of the time limit.

In that case the allies will take all the time necessary to refer the communication to technical committees and sub-committees, thus consuming a week and probably two, and a week on the final action. Thus officials believed the treaty with Germany will not be signed until between June 5 and 15.

Paris, May 20.—Nine members of the American peace commission have offered their resignation as the result of dissatisfaction with the terms of the German treaty, it was learned today.

Three of the resignations are said to be final and the others have been held in abeyance at the request of the commission.

Professor A. Young, of Cornell University, chief economic expert; Dr. Bowman, of New York, head of the territorial intelligence division, and W. C. Bullitt, expert on Russian

GIVEN ONE YEAR IN OHIO BOYS SCHOOL

Herbert Jackson, 16, and Dallas Byrd, 17, Are Sentenced For Auto Theft at Hamilton, O.

BEFORE THE JUVENILE COURT

Boys Stole Machine May 13 While Fugitives From Here and Returned to Indianapolis

Herbert Jackson, age 16 years, son of Andrew Jackson, and Dallas Byrd, age 17 years, son of Frank Byrd, both living near this city, were sentenced to the Ohio Boys' Industrial school at Lancaster, by Judge R. S. Woodruff in juvenile court in Hamilton, Ohio, yesterday afternoon for an indeterminate time according to a dispatch from that city today.

The two boys were arraigned on a charge of stealing an automobile in Hamilton Tuesday, May 13, while they were fugitives from this city.

Under the Ohio law, it is said that a sentence similar to the one given the local boys is equivalent to a years imprisonment, although there is some chance of their being released sooner if their behaviour is good.

Dallas Byrd and Herbert Jackson were connected with the theft of thirty white plymouth rock chickens from Cary Cross, living near this city, Saturday night, May 10. Two other boys near the city were given suspended sentences and fined for the part they played in the same affair. After stealing the chickens, Jackson and Byrd went to Hamilton where they stole the Ford and returning to Indianapolis by the way of Rushville, stopping here for only a few minutes, evidently having been given a "tip" that the police were on the lookout for them.

Going from this city to Indianapolis, they were apprehended while in the act of selling the Ford machine. They were returned to Hamilton from Indianapolis by the police to await trial in the Hamilton juvenile court.

It is thought by the city administration here that the arrest and convictions of this group of boys

FARMER OF NEAR MAYS IS SUED FOR DIVORCE

Mrs. Jennie O. Scott Files Complaint Against Husband, Thomas B. Scott, Asking \$7,000 Alimony

SHE ALLEGES HE CHOKED HER

Thomas B. Scott, a farmer of Washington township, living on Mays R. R. 1, was sued for a divorce and \$7,000 alimony in the circuit court today by his wife, Mrs. Jennie O. Scott, who also asks the custody of their seven-year-old daughter, Avis Marcella Scott, and an allowance for support and preparation for trial of the suit.

Mr. and Mrs. Scott were married November 23, 1904, according to the complaint, and separated May 13, 1919. Mrs. Scott alleges that her husband choked her three different times and on many occasions slapped her. It is also alleged that Mr. Scott cursed his wife and called her vile names. The complaint says he failed to provide sufficient clothing for his family and supplies for the household, though he was amply able to do so.

It is set forth that he owns 40 acres of real estate worth \$250, an acre, making its value \$10,000, seven horses, valued at \$1,200, 29 hogs, valued at \$800, farm implements worth \$1,000 and other personal property.

WATSON AND NEW
WILL BE HONORED

Former is Selected For Place on Finance Committee Which Will Frame Tariff Legislation

NEW ON FOREIGN RELATIONS

As Forecast Yesterday, Senator Watson is Made Member of Committee on Committees

Washington, May 20.—Senator James E. Watson probably will become a member of the finance committee of the senate and Senator Harry S. New may be chosen for a place on the foreign relations committee.

Both are major committees to which only senators of long service usually are chosen, so it will be a high compliment should the Indiana senators finally be named for such important places.

The finance committee considers all tariff and revenue measures, while it will be the senate foreign relations committee to which the treaty will be referred when it is finally sent to the Senate by President Wilson. Besides being in line for these important committees, Senator Watson will retain his place on the interstate commerce committee which will consider the railroad problem and Senator New will remain on the military committee.

Senator Watson as forecast yesterday was Monday afternoon named by Senator Lodge, a Republican senate leader, as a member of the senate committees. Senators Brandegee, Curtis, Harding, Sterling, Calder, Borah and Johnson, were others named on this committee, but Senators Johnson and Borah asked to be excused because they preferred that the progressive group be represented by Senator Jones of Washington and Senator Kenyon. Senator Lodge, however, will not substitute Jones, who is slated for chairman of commerce bureau. He wants to avoid placing the chairman of any major committee on the committee which is to pass out committee assignments.

that it would be premature to discuss it until he could presently lay the whole matter before congress in complete form. His sole reference to the league of nations in the message was to say that under its agencies of international counsel and suggestion on industrial problems had been created and it would be advisable to have a national body to do such work for American workers and industry alone.

Called into extra session in an unprecedented manner—by cable from the president in a foreign country—the new congress, immediately has become the center of

Great crowds flocked early to the capital to see see republicans take the reins which the democrats held since 1911 in the house and 1913 in the senate.

Commends Y. M. C. A.

In spite of the rapidity with which the army is being demobilized the National War Work Council of the Y. M. C. A. announces that the number of secretaries now in its employ in war work in the United States is 4,770. When the mobilization activity was at its height and the camps and cantonments were thronged with soldiers the Y. M. C. A. recruited no less than 8,707 secretaries for work in this country alone. There were 3,760 workers in the home field in January.

In giving out these figures the National War Work Council also made public a letter recently received from Major General W. A. Holbrook who for some months was the commander of the Southern Department. "I desire to take this opportunity," writes General Holbrook, "of expressing the deep appreciation I feel for the splendid work of the Young Men's Christian Association in all parts of this country which have come under my observation."

"I first noted their activities when stationed in a desolate camp, on the Mexican Border in 1916, when the Association came to my assistance to furnish some form of amusement for my command. The work there performed was a splendid one, both from a physical and moral standpoint."

"Since that time I have commanded at Camp Sherman, Sheridan and Grant, as well as the Southern De-

partment. In all of them the Y. M. C. A. was a conspicuous agent for good. In all of the camps above mentioned, the 'Y' huts were the scene of constant activity; some form of entertainment was provided nearly every night, and at Camp Sherman the Records showed approximately a million visits per month to these huts.

"I consider the influence of the Y. M. C. A. in building up morals" was beyond price. Many men under the guidance of the Y. M. C. A. undoubtedly led a cleaner and better life than they had ever done before. Along the Mexican border, which was more than 1700 miles in extent, there was no garrison so isolated that the strong arm of this organization did not reach out to it bringing comfort and good influences.

"I feel that the army and the country at large cannot be too grateful for the splendid work of the Young Men's Christian Association throughout the land and abroad."

Decoration Day.

The civil war struck the note of our nation's greatest peril. Disunion meant abandonment of the principles upon which the country was founded, meant constant strife and eventual disintegration. At the country's call our clear-eyed young men marched out, ready to sacrifice life and limb, if need be, for the unity of the nation. Their courage saved it for future generations.

It was wise for our fathers to set a day for commemoration of the services of these citizen soldiers. Most of them now lie beneath grassy mounds in the cemeteries throughout the land, but when Decoration Day comes we pay tribute to their self-sacrifice.

Those who lost their lives in the civil war had the vision of a united country. If they could have seen her growth in power and resources and splendor, they would have said, "IT WAS WORTH THE PRICE."

We have ourselves just passed through such another crisis. We have seen the young men of our day also rising at the call of their country. "Their eyes beheld the vision and the dream," but it was the vision of a free world, delivered from the wickedness of arbitrary power.

When we lay flowers upon the graves of the older heroes, we shall have in mind the thousands of white crosses which mark American graves on the fields of France. And with our gratitude to them will come the hope that the world will be so much better through their sacrifice that in time to come it may truly be said, "IT WAS WORTH THE PRICE."

If Germany objects to the bill of fare the allies will probably take the attitude of the old-time Western restaurant keeper, who, revolver in hand, used to say to a critical guest, "Stranger, you'll eat hash!"

The peace conference at last prepared a menu to present to Germany. On examination it strikes us that it includes considerable crow and a good deal of humble pie.

Now is the time when the house-

Opening The Wrong Faucet

There were times when a certain Rushville citizen thought he had two of the best cars made—one a closed machine and the other a small five-passenger knockabout car to run to and from the farm. But there are times when men—even this man—revise their opinion.

In this case the owner became a backslider with respect to the quality of his two cars because they developed a stubborn spell and positively would not start. He discovered a new trait of the small car first, and then trying out the big car, found it had been infected with the same trouble.

To make a long story short, he worried and stewed and spent about \$40 at the garages locating the trouble, and then by the merest chance discovered himself that the man from whom he buys gasoline had filled his gasoline tank with coal oil. Little wonder that he swore!

Hart in "Breed of Men"

Will S. Hart in "Breed of Men," is being shown at the Princess theatre tonight, with Seena Owens as the leading woman. This is the story in which Mr. Hart made some striking scenes in the Chicago stock yards.

There are many interesting features about this picture, which are declared to be real novelties. One particularly effective scene is that wherein "Bill" Hart, in the role of a westerner who has a passion for gambling loses his roll and his horse and is, in the parlance of the cow country, "broke and atoot." This spells literal ruin for a westerner. How the hero of the story succeeds in righting wrongs to which he has been an innocent accomplice, a tool in the hands of a sharper, and wins the love of a worthy girl from it is asserted, one of the strongest plots that the vinile star has ever had.

Mr. Hart was interrupted in the filming of one scene by the arrival of a beautiful leather picture of Fred Stone, the famous comedian who recently made three pictures for Artercraft. Bill and Fred are old time pals. When the former was in Chicago he saw Stone who was playing in "Jack O'Lantern" at the Colonial Theatre and he was the guest with his party at a performance of that musical comedy. While Fred Stone was on the coast working at the Lasky Studio, he and Mr. Hart had plenty of opportunity for reminiscing and enjoyed it immensely. Theda Bara in "The She Devil" is the offering tomorrow.

"I WAS there—at Verdun—in October, 1918—and the Salvation Army was my best bet."

"We'd been in the front line 36 hours. We had moved so fast our kitchens were lost and had no 'chow.' 'Zero hour' was set for 5:30 next morning. We 'went over,' and after three hours in No Man's Land a machine gun bullet got me in the leg."

"Litter bearers of Co. I, 127th Infantry, picked me up! On the way back, before we reached the first aid regimental dressing station, they put the litter on the ground, just behind our old front line, and a Salvation Army man gave me doughnuts, good hot coffee and cigarettes. And, let me tell you, high explosive and gas shells were falling mighty thick around us!"

"It was the first food I'd had in 39 hours. The pain was fierce, and I was bleeding a lot. The doughnuts, coffee and smokes did more than simply put new life into me. The Salvation Army was my best bet."

"As I lay on the litter waiting for the ambulance all I could think of was how good the coffee and smokes tasted—my own tobacco was too bloody to smoke."

"All of us knew the Salvation Army was behind us. They were real folks, and we knew we wouldn't have to ask for help if we needed it. We knew we could count on them, and believe me, it kept up our spirits."

"I sure wish I could get out and root for the Salvation Army and tell you about them instead of writing."

Copy of Letter Which Was Addressed to Both Houses of Congress Received by Local Company

EXPLAINS COMPANIES WISHES

Says Just and Speedy Settlements Should be Made For Properties Taken Under the Law

The Rushville Telephone company has received a letter from J. B. Mackinnon, vice-president of the United States Independent Telephone association, concerning the steps the government is taking regarding the turning of the private telephone owners to their former owners. The board of directors is to hold a meeting in Washington, Wednesday and at this time further plans for the companies will be discussed and plans for the future made. It has been agreed that when the telephone companies are returned to their former owners, transfer will take place at midnight on the last day of the month in order for the private ownership to start at the first of the month. At this time financial adjustments between the government and the companies will be made.

Enclosed with the letter from Mr. Mackinnon was a copy of a resolution addressed to both houses of congress, which is signed by Theodore N. Vail, president of the American Telephone company, and G. W. Robinson, president of the U. S. Independent Telephone association, and which is as follows:

"On midnight July 31, 1918, under the authority of Congress for war purposes, the President took supervision, possession, control and operation of the telephone systems of the country and has since operated them. The war has practically ceased. The public press is strongly demanding, the general public and the owners of the telephone properties are urging, that they be returned as speedily as possible, that former conditions may be restored and more satisfactory service be afforded. The President and the Postmaster-General have announced that this will be done as soon as adequate arrangements be provided for receiving and advantageously operating them. It remains only for Congress to enact such legislation as speedily as possible.

The expenses of these systems have largely increased during the past year, for wages alone at the rate of more than \$20,000,000 per

annum. This was inevitable and necessary by reason of larger proportional increases by the Railroads and industries of the country. The revenues are inadequate to care for such increases, and the deficit of the Government on that account to date is large and steadily increasing. The Postmaster-General ordered that steps be taken to secure adequate revenues, but contentions with the regulatory authorities of the States, not yet settled, have prevented such adjustments.

If such conditions continue, necessarily the credit of the operating companies will be impaired, proper expenses cannot be met, the best operating forces cannot be retained needed extensions and satisfactory service cannot be provided. A deterioration will ensue which in some localities may threaten a recurrence to public ownership or operation in order to care, even inadequately, for public needs. By prompt action Congress can prevent this contingency.

Just and speedy settlements should be made for all properties taken under the existing law, that such balances now in the possession of the government may be restored to assist in the upbuilding and extension of the various systems for better public use. The conditions and regulation of operation should be clearly defined so as to permit the companies to reestablish and maintain a satisfactory service with reasonable rates without discrimination and procure the benefits of legitimate competition. The principal operating companies of the United States are vitally interested in co-operating with Congress and the officials of the Government to accomplish these results."

Plain Tales of Plain People

The Cripple's Appeal

SHORTLY before last Christmas a wealthy man advertised his desire to bring happiness to some crippled children. A boy answered the ad, requesting food and toys.

The man asked the Salvation Army to investigate.

Major Jennie Ward, in charge of the slum work of the Army in New York city, found the cripple living in one room on Cherry street, with a baby sister and widowed mother, recovering from influenza.

With her last earnings the widow had paid the rent. Major Ward entered a room in which there was neither fire nor food. It was the home of three humans—a baby, a cripple, a frail, toil-worn woman—that hunger and cold would have turned into a death house in a few hours.

In less time than it takes to tell a stove, cooked food, medical assistance and soul comfort were supplied. The Army assumed guardianship, preventing further suffering and perhaps self destruction, turning three hopeless lives into lives of hope.

This is an actual case—one of thousands on the records of the Army. It deserves your support.

Get into the trenches of America with the Salvation Army. Help it give the kind of help that is needed when the need is greatest.

At the close of the program Mrs. C. N. Bever, secretary of the Mite Box, announced that the sum of \$50.00 was received from the boxes. At a late hour dainty refreshments of ice cream, cake, candy and coffee were served.

NAVY DEPARTMENT SENDS OUT ORDERS

Men of the Navy are Using the Uniform to Sell the Same as Army Men Have Done.

PRACTICE MUST BE STOPPED

Men Say They are Discharged Without Funds, but Such is not case —Mayor Gets Letter.

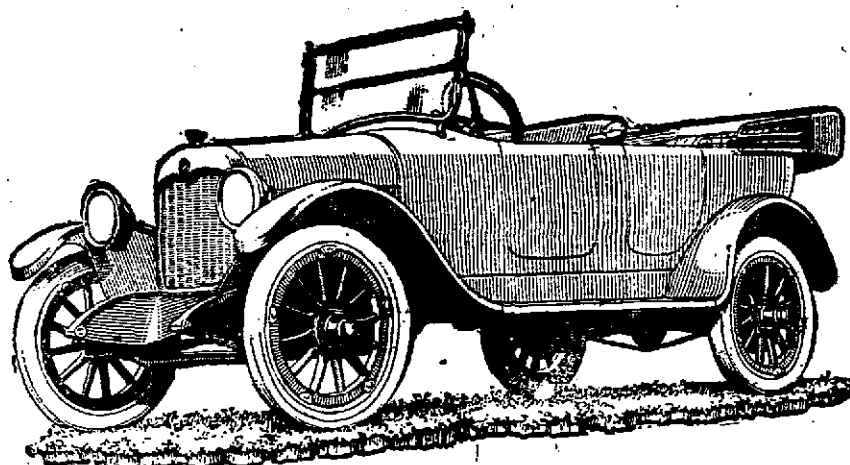

Mayor A. B. Irvin has received a circular letter from the navy department calling his attention to the law concerning the wearing of the navy uniform by men after being discharged and depending upon it to get them assistance in the place of working for a living. All men who have been discharged or who have been placed on inactive duty should have their discharges or inactive orders with them, the letter says. Any man wearing the uniform who has not been recently discharged or placed on inactive service or is not on active duty in the navy, is violating a United States statute which is quoted in the letter as follows:

"It shall be unlawful for any person not an officer or enlisted man in the United States Army, Navy or Marine Corps, or any such distinctive part of such uniform, or a uniform any part of which is similar to a distinctive part of the duly prescribed uniform of the United States Army, Navy or Marine Corps."

The navy department states that there are many men wearing the naval uniform who were never in the service and are going throughout the country selling various articles, depending upon the uniform to help them make the sales. These men claim they have been discharged from the naval service without funds and are forced to adopt these measures to get a living. It is thought that the men who are bringing discredit to the uniform are men who have never seen any service but have bought the uniform from a discharged man.

The department states that every man discharged has been released upon his own accord and has been given a bonus of \$60 and his transportation paid to his home and that there is no use of them trying to sponge off of the public in this manner. The local police have been instructed and anyone seen here trying to sell to the public while in the uniform will be apprehended at once.

\$500 more than the price of a Maxwell will buy you mere size only

FOR a Maxwell has every single modern device that any car selling within \$500 of its price possesses.

The only thing an extra \$500 will procure is size—a few inches of wheelbase, 2 inches of tire, 50 pounds more of engine, and 5 or 10 other things that a \$20 note would easily cover.

Then you run the risk of not getting as good a car as a Maxwell.

For it is one thing to build a 10,000 a year car and another to build a 50,000 a year car.

The chances are in favor by far of finding the real merit in the latter.

The Maxwell has a record run of 300,000—all of one model—behind it.

That means sureness of design, freedom from "temperament," reliability plus, economy for certain, and always a ready market value.

A larger car costs more to maintain. A smaller car has less luxury.

Our Interest Doesn't Cease When the Goods Leave Our Store

We are just as much interested as you are in good work by the implements that you buy from us.

When you come into our store to buy an implement, you are mainly interested in getting a good bargain. And we are mainly interested in giving you a good bargain.

As we see it, there isn't a particle of difference between a good bargain for you and a good sale for us. They mean exactly the same thing.

If the implement you buy gives you full satisfaction in actual work, you have made a good bargain and we have made a good sale. No matter what you buy of us, we are concerned in its giving satisfaction.

We live here among you. We do business over and over with the same people. We know that we can't make future sales by selling unreliable goods, but that the extent of our patronage depends upon the satisfaction given by each and all of the implements we sell.

To help us carry out this policy of ours, we handle only high-grade implements and machinery that have a reputation for satisfactory service in the hands of the farmer.

Our interest follows these implements and machines into the field and, if for any reason they fail to work properly, we take steps to find and remedy the trouble.

Beads and Palm Nuts of Africa, Hindu Women's Earrings, and Chinese Mites Aid Centenary

Above is a pile of Centenary offerings in an African village—beads and palm nuts; below to the left is a Hindu boy on his way to church with his offering. At the right is a Sumatra woman who is about to give the enormous earrings shown in the picture as a Centenary offering.

PROBABLY no campaign for funds for religious activities are contributions being made in so many forms as to the Methodist Missionary Centenary. Not only Americans are giving money to this fund, but Methodists all over the world—many of them, amid conditions of which Americans little dream, are giving in their own way to the Methodist Christian world-reconstruction fund of \$115,000,000.

Rings from the fingers, toes and ears of Hindu women are helping to pay the world's reconstruction bill. So are rice, beads and palm nuts from the huts of African villages; wedding rings and silver hairpins from the women of Korea; poultry, eggs and tropical fruits from native farms in the Philippines, and milk

from a prize Guernsey cow on a dairy farm in Wisconsin.

In the South, planters are providing special bales of cotton to help the \$115,000,000 reconstruction item. Thousands of war gardens will be transformed into re construction gardens, to help "put over" the program.

From the Methodist foreign missions posts are coming reports like this:

Palm kernels cracked by church members \$ 54.48
 Rice 55.55
 Silver rings, enameled plates and pans, beads, cloth and other gifts 26.34

Total collections \$119.40

For most of the country, the Methodist Campaign will be carried on May 18 to 25. Many churches of this area are already "over the top."

HE DOES HEAVY WORK

"For five years I have been troubled with my kidneys," writes Bert Dawson, 712 E. Walnut St., Canton, Ill. "I do heavy work, and that, with being on my feet all day, is a strain on a man's kidneys. My trouble started with severe, sharp pains over my back. The medicine I took gave some relief, but the trouble came back. I bought a bottle of Foley Kidney Pills, and before it was gone, my pains had entirely left me, and I have not been troubled since." They relieve backache, rheumatism, sore, swollen and stiff muscles or joints. F. B. Johnson, Adv. 7

What Doughboy's Mother Thinks of Lassies of Salvation Army Overseas

What the American doughboy, the "overseas" service man especially, thinks of the Salvation Army and its work in the war zone is an oft-told tale, wherever America's youngest veterans get together. But here is what a Yank's mother thinks of the "Army" and its splendid overseas record and in writing of it she quotes from letters received from her son in France. She's a typical Michigan mother is Mrs. William Hoffman, 161 Stewart avenue, Jackson. Although her story is typical of the same expressions that have come from Indiana mothers, especially since the announcement of the Salvation Army Home Service Fund drive for \$15,000,000 during this week, Mrs. Hoffman's letter is quoted from the Jackson, Mich. "News" as follows:

"To the Salvation Army and whom else this may concern— which should be All Humanity: I just want to express my heartfelt thanks to the Salvation Army. Although I am not a member of any religious organization it is my duty as a mother who has a son in the war to tell you what he has said to me in several of his letters. In one, written since the signing of the armistice, he says: "Ma, last evening I listened to a sermon by a Salvation Army man who had just been away from the good old U. S. A. nineteen days. It sure was good. He told me what the folks back home were doing and it sure does make a fellow feel good. Guess I gave a foot listening to him."

"In one of the papers I noticed that the Salvation Army is trying to raise a fund of \$15,000,000 to finance itself for home service. If ever there was a deserving organization, it's this one. In our last big drive the Salvation Army lassies were with us, scarcely taking time to eat and if their uniforms were with or without supplies there was always that ever welcome smile and that ever need of thread and needle."

Janesville Two-Row Cultivator

WHEN you sit comfortably on the easy riding Janesville Two-Row, and see every plant in every row getting exactly the cultivation you want it to have, you think what a blessing it is that you have a machine to do all that work. The old timers would think so if they could see you getting over the field so rapidly, and doing the work better than they ever did.

The Janesville Floating Arches solve the problem. They are hung by pendulums from the top bar and swing from side to side with a pendulum movement. You widen or narrow the gangs in the row with your feet. Or lock them at any width desired.

The shovels naturally follow the rows, but you can shift them to either side so quickly and so easily that you can hoe every hill without stopping the team.

Your own weight on the seat bars acts as a lever to turn the wheels slightly up hill—this big advantage takes the down-hill creep out of side-hill plowing. The entire machine is light, compact, flexible—no oiling needed except in wheel boxes.

Cultivate with a Janesville Two-Row—and you will forget that there ever was hard work in cultivation.

Make This Test For Acid-Stomach

There are millions of people who suffer almost daily from the horrors of an acid-stomach—indigestion, sour, gassy, stomach; distressing heartburn; sickening food-repeating; painful bloating and that miserable, puffed up, lumpy feeling after eating. Many of these people have tried treatment after treatment; medicine after medicine; others have gone to doctors and stomach specialists and some to hospitals but in spite of all of their efforts they have obtained no lasting relief or a permanent cure.

These symptoms simply mean acid-stomach. If allowed to run on, they are very likely to cause a lot of serious trouble. Dyspepsia, rheumatism, gout, lumbago, sciatica, splitting headache, dizzy spells, nervousness, sleeplessness, mental depression, melancholia, a feeling of listlessness and all-goneness—these are just a few of the disorders which can be traced to acid-stomach. As a matter of fact, acid-stomach is often the direct cause of those almost incurable conditions known as catarrh of the stomach, intestinal ulcer, and cancer of the stomach. The lives of those who suffer from these serious troubles are nothing short of daily agony. Surely, then, you must see how important it is to go at once to the seat of the trouble—acid-stomach. You know what acid-

mouth does to the teeth—how it eats right through the hard enamel and causes them to decay. Think then of the havoc that must be caused by excess acid in the stomach!

Even if you are not suffering any immediate stomach pains, but are not feeling just as fit and fine as you should, you should by all means make this test: go to your drug store at once and get a big box of EATONIC. It is in the form of pleasant-tasting tablets—you eat them like a bit of candy. EATONIC is prepared for just one purpose—correcting acid-stomach by driving out the excess acid. EATONIC literally absorbs the excess acid. It brings instant relief from the pairs of indigestion, heartburn, belching, sour, gassy stomach, bloating, etc. It makes the stomach pure, sweet, cool and comfortable, puts it in a normal, healthy condition, so that your food is properly digested. You need every bit of strength you can possibly get out of the food you eat—and EATONIC helps you get it.

Don't put this test off if you value your future good health and happiness. You run no chance at all because EATONIC is absolutely guaranteed to give you relief or your druggist will refund your money. The cost is a mere trifle.

Sergt. Murray Writes Interesting Letter to Cousin, Miss Gladys Chadwick, of This City.

NOW IN THE UNIVERSITY.

Has Traveled Extensively During the Last Few Months of Foreign Service.

Miss Gladys Chadwick of North Willow street has received an interesting letter from her cousin, Sergt. Jon C. Murray, well known here, who is now in a university in London. Sergt. Murray was awarded the Distinguished Service Cross for bravery shown in battle during the drive at Chateau Thierry and was later chosen to represent his regiment in the school for the A. E. F. in England.

A part of the letter is given herewith: "I am here as one of the students in British universities, 1800 being chosen out of the entire A. E. F. Some of that number, however, are in French universities. I was originally assigned to Cambridge but found that the work that I was most interested in could not be obtained there and I was transferred to the University of London, which ranks first in economic courses. It is my desire to train for foreign credit work and am therefore studying foreign banking, law and trade.

Had a wonderful leave, visited Nice, Monte Carlo, which is a most beautiful place with marble palaces, little lakes and rivers in wonderful gardens. I saw many other places of interest and spent five days in Paris after visiting the battle areas. I crossed the channel at La Harve, landing at South Hampton, and going to Liverpool. On St. Patrick's day I was on the Emerald Isle in Dublin. London, my present place of residence, is a wonderful city. Paris is the greatest city in the world, I think, but London ranks a close second.

My course will continue until the early part of July and then I will return home, that is, unless I get some chance to go to Russia or Italy. I will see all the Emerald Isle, Wales, Ireland and Scotland, have seen France and most of the Hunland so I would like to see the other two countries. I did my fighting and have earned a little pleasure in a sense but have a broader, better education.

I have seen myself twice in the movies. Once when General Pershing decorated me with a few others and again here as I was going into the

abbey to attend a memorial service in honor of the war dead. In the first picture I looked frightened but in the second I acted as if I owned the Abbey. I looked far more frightened than the night I slipped through Heinie's lines at Fismes during the Chateau Thierry drive. You see I am very proud of my service cross and because there were only 43 given, I have a reason to have the big head."

Sergt. Murray closes expressing the desire to return to the States soon.

S. A. Lassie Doesn't Know a Thing Really—On Firing Line a Year

"Really I don't know a THING! You see I've just come back from France where I'd been doing canteen work on the firing line for more than a year!"

That's the answer pretty Lieutenant Louise Stella Carmickle, aged 19, laughingly gives to all inquiries as to her sojourn in the war zone. She's been one of the few Salvation Army lassies who, had baked doughnuts and pies under German shell fire and has smiled the cheery Salvation Army's lassie smile all the while.

Miss Carmickle has been telling her story throughout the Salvation Army province of Michigan-Indiana during the nation-wide drive for \$13,000,000 for the National Home Service Fund. Her story is of particular interest to Michigan and Indiana folks too, not only because she has served doughnuts and pies and coffee to so many of Michigan and Indiana boys overseas, but because she is a native Indiana girl, having been born in Tell City, Ind., but a Bay City, Mich. Salvation Army corps lassie.

War Veterans of World Battles Guests of S. A. At Memorial Observance

Veterans of all the wars are to be guests of honor at the special memorial services to be held in all cities throughout Indiana and Michigan by the Salvation Army Corps Officers, Sunday, May 25.

The veteran organizations will include the survivors of the Civil War, the Spanish American, and the veterans of foreign wars. Prominent in the line up, however, will be the youngest of American veterans, the Michigan and Indiana doughboys who have carried the flag across the Rhine.

The gathering of the veterans of all wars with their "Ally" the Salvation Army has been planned as a fitting wind-up to the National Home Service Fund Campaign for \$13,000,000 of which the lower peninsula of Michigan and Indiana had been apportioned a quota of close to \$1,000,000.
